

Summary

3rd-year B.Tech student with strong skills in web development, AI, and computer vision. Experienced in building scalable, responsive applications using modern frameworks, REST APIs, and version control. Demonstrated ability in problem-solving, team collaboration, and delivering efficient user-focused solutions through hackathons and EPICS project work.

Projects

1. Histori.Ai - AI Landmark Recognition & Travel Planner (Ongoing EPICS Team Project)

- Developing an AI system using YOLOv8 (92% accuracy) for image-based landmark recognition.
- Integrating Google Maps API, REST APIs, and an AI chatbot for personalized travel recommendations.
- Building an immersive 3D landmark explorer using Three.js & React Three Fiber with responsive design.
- Working in a multidisciplinary team with structured workflows and Git-based version control.

Tech: YOLOv8, Python, React.js, Three.js, R3F, Node.js, Express, MongoDB/Firebase, OpenCV

2. Study Planner (Winner of Promptx Hackathon) -

- Created a customizable FFCS-style timetable, assignment tracker, and smart reminders.
- Added productivity tools including study timer, stopwatch, and grade calculator.
- Designed a clean, responsive UI with real-time updates.
- Used REST APIs and Git/GitHub for smooth collaboration.

 <https://lnkd.in/dpVn5iBq>

Tech: React.js, Tailwind CSS, TypeScript, Node.js, Express.js, Firebase/MongoDB, Vite

3. E-Commerce Website — — 2nd Runner-Up (Linpack Intra-Club Hackathon)

- Built a modern, fully responsive online store with dynamic product browsing and cart management.
- Integrated Stripe payments using secure REST APIs for seamless checkout.
- Designed scalable components and optimized UI performance across devices.
- Implemented wishlist, order flow, and efficient version control using Git/GitHub.

Tech: React.js, Tailwind CSS, JavaScript/TypeScript, Node.js/Express, Stripe API, Vite

Skills

Languages: Python, JavaScript, TypeScript, C++, Java

Web Development: React.js, Tailwind CSS, Node.js, Express.js, Stripe, REST APIs, Responsive Design

AI & Computer Vision: YOLOv8, OpenCV, NumPy

Databases: MongoDB, Firebase, PL/SQL

Tools: Git, GitHub, Figma, Postman

Soft Skills: Problem-Solving, Team collaboration, Communication

Education

High School -

Thakur Public School, Mumbai	2021
